Knowledge of and sensitivity toward diversity is an essential skill in the contemporary United States and the wider world. This book addresses the standard topics of race, ethnicity, class and gender but goes much further by engaging seriously with issues of language, religion, age, health and disability, and region and geography. It also considers the intersections between and the diversities within these categories. Eller presents students with an unprecedented combination of history, conceptual analysis, discussion of academic literature, and up-to-date statistics. The book includes a range of illustrations, figures and tables, text boxes, a glossary of key terms, and a comprehensive bibliography. Additional resources are provided via a companion website.

British politics since 1945 Oppgaven handler om det som skjedde med Storbritannia etter 1945, The end of empire, the economy, Building a welfare state, The Thatcher. Fordommer, fiendtlighet og hat. Ingen er helt fri for fordommer. Men det kan synes langt mellom den typen fordommer vi alle bærer på og det ekstreme hatet vi ser at.
