What if you had the chance to rewrite your past? Every night, Marc Laurent, an American taken hostage in Pakistan, is bound and blindfolded. And every night, a woman he knows only as Josephine comes to visit him. At first, her questions are mercenary: who will pay for his release? But when Marc can offer no name, she asks him an even more difficult question: why didn't he go home for his daughter's funeral? So begins a strange yet comforting nightly ritual. Josephine tells Marc stories about what might have happened had Claire not been murdered. In turn, Marc begins to tell his own, in which his daughter is still alive. Soon, neither Marc nor Josephine are sure which stories are true and which are imagined, or even if it matters. And as they unfold -- on a journey across America, into the past, and into a future that may never come -- father and daughter start to find their way towards understanding each other once again. Lyrical, seductive and utterly compelling, *All That's Left To Tell* is a novel about second chances and the stories we tell to make sense of ourselves.

Bee Movie Script According to all known laws of aviation, there is no way a bee should be able to fly. Its wings are too small to get its fat little body off the ground. Kristendommen blir sett på som kvinne undertrykkende, kvinnefiendtlig og den mener kvinnene er underlagt mannen. Ifølge bibelen har ikke kvinnene rett til og åpne.
